TÜRKSAT

COMPANY INFO

- TÜRKSAT, established on 16.06.2004 to manage the
- orbital rights of Turkey and to operate the satellites as a
- result of Turk Telekom privatization

- Türk Telekom's cable TV infrastructure and the
- operations of these services provided through this
- infrastructure were transferred to the TÜRKSAT by the
- Law on 21st April 2005

- The operation and the management of the Turkish e-
- Government Gateway Portal was given under TÜRKSAT
- responsibility with the coordination of the Ministry of
- Transportation

- %100 shares of TURKSAT is wholly owned by Republic
- of Turkey, Turkish Sovereign Wealth Fund.
